

Adelaide Health Simulation Tour & Workshop

Date: Monday, 11 August 2025

Time: 13:30 – 17:00

Location: Adelaide Health Simulation, University of Adelaide

*Attendees to meet Host at the Congress registration for 13:30, the Host will walk with you to the venue

This Master Class is Perfect For:

Healthcare professionals, educators, simulation technicians and students interested in cutting-edge simulation technology and innovative teaching methods.

Why Attend:

Gain exclusive VIP access to the Adelaide Health Simulation (AHS) centre, a state-of-the-art facility accredited by the Society for Simulation in Healthcare. This tour and workshop offer a unique opportunity to explore advanced simulation modalities and learn from experts in the field.

What to Expect:

- A comprehensive tour of the AHS facility
- Exposure to various simulation modalities including manikins, simulated patients, virtual reality, and task trainers
- Demonstrations of how Electronic Medical Records are integrated into teaching and scenario development within a paperless simulation environment
- Insights into the use of Electronic OSCE software
- Discussions on the integration of technology and architecture to support learning
- An overview of how simulated patients are oriented to their roles

Learning Outcomes:

- Understand the capabilities and applications of different simulation modalities
- Learn how to effectively integrate technology into healthcare education
- Gain insights into the use of Electronic Medical Records and OSCE software in simulation
- Explore the role of architecture in creating effective learning environments
- Have the opportunity to ask questions and explore specific interests with the AHS team

Host:

Adam Montagu - Adam Montagu is the Director of Adelaide Health Simulation (AHS) and leads a dedicated team of academic and professional staff committed to providing high quality simulation-based learning and assessment to undergraduate students of the health professions. Under his leadership AHS has been accredited by the Society of Simulation in Healthcare in the domains of Teaching/Education and Research. Adam is an innovative and authentic leader, who's teaching practice has been recognised and awarded locally, nationally, and internationally. Adam was a top three finalist for the South Australian STEMM Educator of the year and has been awarded the University of Adelaide's premier teaching award, the Stephen Cole the Elder Award for Excellence in the Leadership, Support and Enhancement of Teaching Practice.
